## Highlights

### **5. Help Iraq Strengthen Its Economy**

On February 8, the GOI passed its 2007 budget. The budget anticipates income of \$33.4 billion, of which \$31 billion is expected in oil exports. The budget also anticipates expenditures of \$41 billion, including a little over \$10 billion for reconstruction programs and \$7.3 billion for security. The GOI will cover the \$7.6 billion deficit using unspent funds from fiscal years 2005 and 2006, currently held in the Development Fund for Iraq.

### **8. Strengthen Public Understanding of Coalition Efforts and Public Isolation of the Insurgents**

## [1.] Defeat the Terrorists and Neutralize the Insurgency

### Baghdad Security Forces Coming Together:

- In his February 15 speech the President outlined the progress of the Baghdad Security Plan. He stated that, “our new commander in Iraq, General David Petraeus, is now on the ground in Baghdad. I visited him by secure video yesterday. He reports that coalition troops are arriving on schedule. He says the Iraqi government is following through on its commitment to deploy three additional army brigades in the capital. Prime Minister Maliki has said part of our strategy is to put more Iraqis in the fight in the capital city to achieve our objective, and he's doing that. So far, coordination between Iraqi and coalition forces has been good -- they are beginning joint operations to secure the city by chasing down the terrorists, and insurgents, and the criminals, and the roaming death squads. They're doing what the Iraqi people want in Baghdad -- they want a peaceful life.”

## [1.] Defeat the Terrorists and Neutralize the Insurgency

### IA, 2-7 Cavalry Take Down Insurgent Operation, Uncover Large Weapons Cache:

- Soldiers from the 2nd Battalion, 4th Brigade, 2nd Iraqi Army (IA) Division and A Co., 2nd Battalion, 7th Cavalry Regiment raided several buildings in northeast Mosul February 9 in response to intelligence received about a possible weapons cache.
- Ten suspects were detained in the southern compound, five of which tested positive for explosive residue. Millions of dinars (worth thousands of dollars in US currency) were also found in an underground storage room along with over 400 fake identification cards. One suspect was detained in the northern compound, and a tunnel gave way to the discovered cache of ordnance and weapons. The weapons seized at the site included approximately 250,000 rounds of small-arms ammunition, grenade fuses, dozens of rockets, 100 grenades, over 200 mortar rounds, more than a dozen rocket launchers, approximately 100 pounds of Improvised Explosive Device-making material, more than a dozen small arms. All of the ordnance was turned over to explosive ordnance disposal teams, and the remaining evidence was processed along with the 11 detainees.

## [2.] Transition to Security Self-Reliance – Iraqi Security Forces

### Implementing the Baghdad Security:

- Iraqi Security Forces (ISF) and soldiers from Multi-National Division-Baghdad (MND-B) uncovered 14 weapons caches and detained 140 insurgent suspects in and around the Iraqi capital during the week of February 3-9.
- With more than 7,400 patrols conducted during the week, the trend of having ISF in the lead on day-to-day missions continues, according to Brig. Gen. John Campbell, MND-B deputy commanding general. “Nearly 3,800 of those patrols were conducted by Iraqi police and Iraqi national police,” Campbell noted. “Clearly, our Iraqi partners are taking the lead.”
- During the week, 34 operations - at company level or higher - were conducted. These operations, 20 of them joint and 14 US-led, resulted in the cache finds and detention of suspected terrorists, Campbell said. He also said that as the implementation of the new security plan progresses, the focus of operations will shift throughout Baghdad.

### Health:

- After four attempts, the US Army Corps of Engineers' Gulf Region District-North (GRD) was able to get medical equipment delivered to the Nahrawan primary health care center (PHC). GRD is now preparing to turn the facility over to the Ministry of Health.
- Sectarian violence in this province has made it difficult to deliver medical equipment and supplies to the PHC. GRD is working closely with the brigade combat teams to secure convoy movements so that the delivery trucks will arrive safely.

# [5.] Help Iraq Strengthen Its Economy - Banking Sector

## Central Bank's US Dollar (USD) Currency Auction:

- The following table shows volume sold and exchange rates for USD in the Iraqi currency auction since April. Since September, the Central Bank has begun slowly appreciating the dinar, as suggested by the IMF, to tackle rampant inflation over the past year. This welcome increase in the dinar's value against the dollar is reflected in the figure below.

**Central Bank of Iraq  
USD Currency Auction: April 2, 2006 – February 13, 2006**

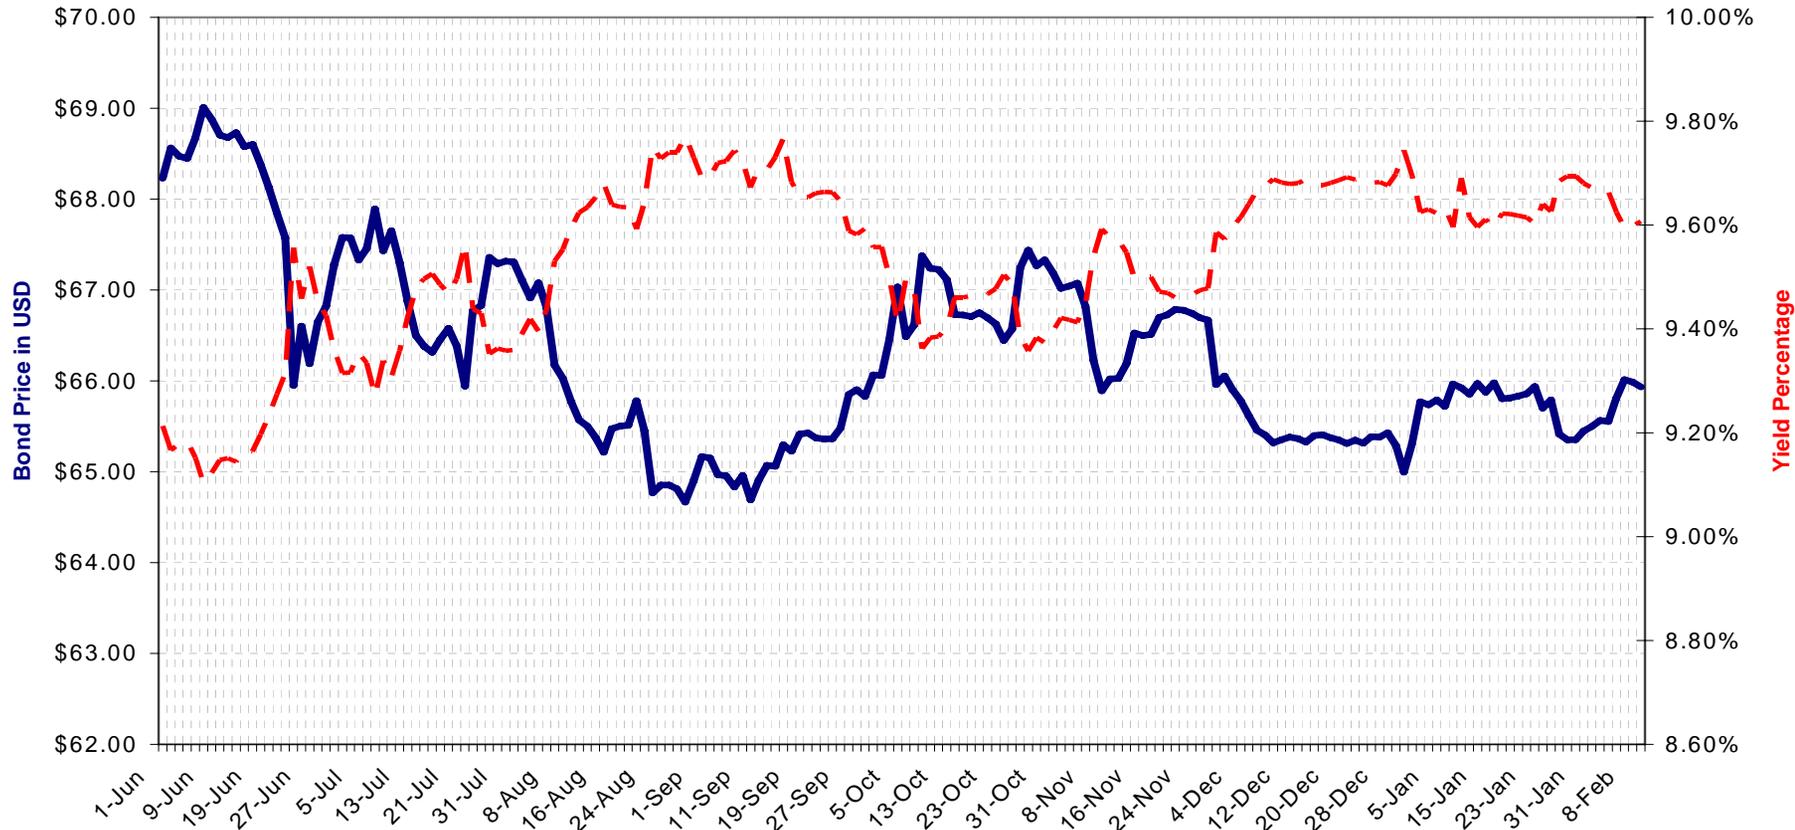

## [5.] Help Iraq Strengthen Its Economy – Securities Markets

### Trading of Iraqi Bonds on the International Secondary Bond Market:

- The following table shows the daily bond resale price and yield on Iraqi bonds issued January 20. The bonds were originally issued to about two-thirds of Iraq's commercial creditors as part of a debt exchange arrangement at Paris Club terms. Iraq's commercial debt was approximately \$22 billion before the debt-swap arrangement. The bonds, which are not yet rated, will mature in 2028. The bonds' current yield of 9.6 percent remains one of the highest in the world for sovereign debt instruments.

### Iraqi Commercial Bond Sales June 1, 2006 - February 9, 2007

Trading High = \$73.98 (January 24)

Trading Low = \$64.66 (August 30)

## [5.] Help Iraq Strengthen Its Economy –Economic Events

### GOI passes 2007 budget:

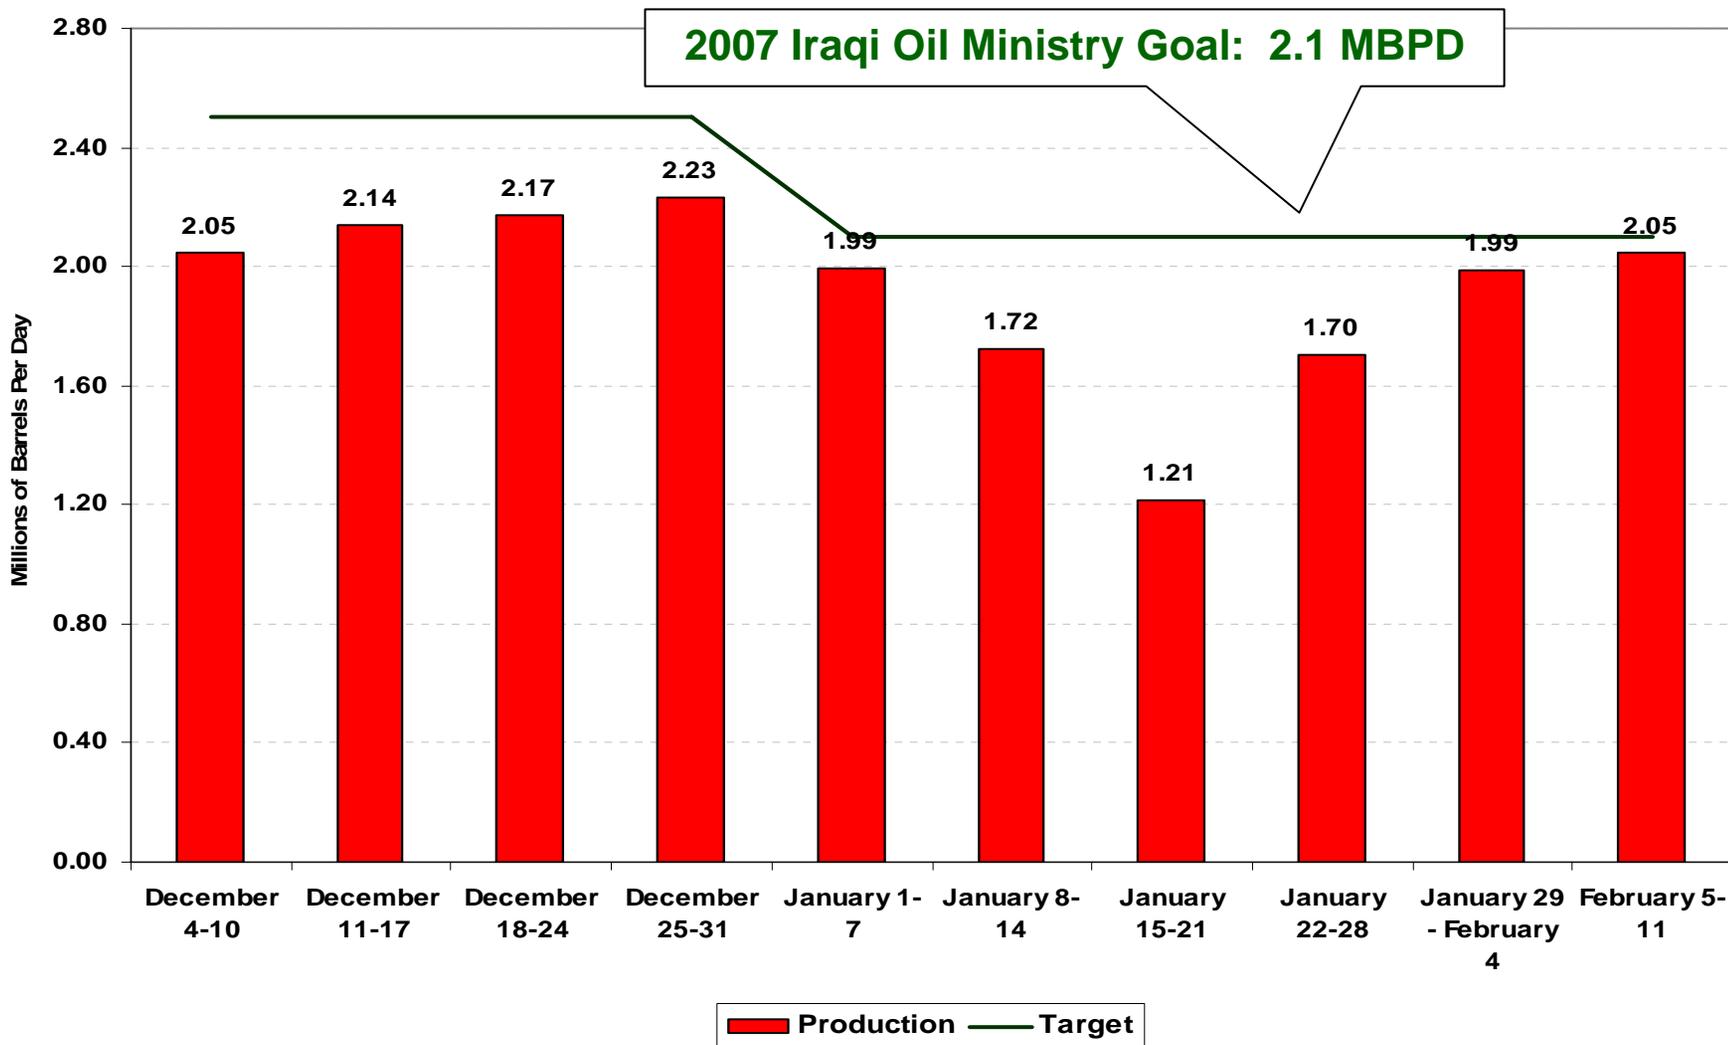

- On February 8, the GOI passed its 2007 budget. The budget anticipates income of \$33.4 billion, of which \$31 billion is expected in oil exports. The budget also anticipates expenditures of \$41 billion, including a little over \$10 billion for reconstruction programs and \$7.3 billion for security. The GOI will cover the \$7.6 billion deficit using unspent funds from fiscal years 2005 and 2006, currently held in the Development Fund for Iraq.

### Banking Technical Assistance:

- Following technical assistance and training from the USAID IZDIHAR project, two Iraqi banks recently created “credit officer” positions that combine a set of professional responsibilities previously divided among several departments.
- The creation of these new positions represents a major shift in the relationship between bankers and their clients. Individual credit officers will be responsible for building loan portfolios, analyzing credit risks, recommending credit extensions, overseeing repayments, and serving as the borrower’s “relationship officer” for the lifetime of the loan.
- This is a crucial step in moving towards cash-flow based lending. Through a number of courses and direct professional assistance, IZDIHAR has equipped credit officers with the tools required to discharge their new functions.

### CCCI Convicts 14 Insurgents:

- The Central Criminal Court of Iraq (CCCI) convicted 14 insurgents January 26-February 1 for various crimes, including possession of illegal weapons, possessing fake identification, and illegal border crossing. The trial court found four Iraqi men guilty of illegal possession of special weapons in violation of Order 3/2003.
- Multi-National Forces-Iraq (MNF-I) were on patrol in the vicinity of Rawah September 20, 2006 when they spotted a vehicle acting suspiciously. MNF-I stopped the vehicle with the four defendants and then searched the vehicle, finding one Improvised Explosive Device (IED), one Berretta 9mm pistol with two full magazines and det cord. Explosive Ordinance Disposal responded to the scene and recognized the IED as a “speed-bump style” IED that contained 15-20 pounds of explosive filler. On January 28, the trial panel sentenced all four men to 15 years imprisonment.

### Iraqi Court Sentences Saddam Aide To Die:

- On February 12, an Iraqi court raised the sentence against Saddam Hussein's vice president to death by hanging for the killings of Shiites in the town of Dujail. The decision had been expected after an appeals court ruled that Taha Yassin Ramadan's previous sentence of life in prison was too lenient.
- Ramadan is the fourth member of the ousted regime to face capital punishment for the killings of 148 Shiites after a 1982 attempt on Saddam's life in the mainly Shiite town of Dujail, north of Baghdad.

### World Bank Pledges Loan:

- The Managing Director of the World Bank (WB) said that the international firm is willing to support the Iraqi government's efforts to restore economic activities in the war-torn country, the Iraq Director reported.
- The WB official indicated that the bank has pledged to deliver a \$500 million loan to Iraq in order to boost the economic situation, despite the security conditions. - The chart shows average daily power production in megawatt hours (MWh). 120,000 MWh goal equates to 20 hours at 6000 MW average supplied load or 24 hours at 5000 MW average supply load. Currently supplies are not much improved over last year when judged by hours of power, but this is due in part to an influx of new appliances. This has dramatically altered demand and diluted the effect of increased generation capacity on actual results.
