

Dr. Burgess Weekly Video Address April 06, 2012

“Forewarned and Prepared”

Hello, this is your Congressman, Michael Burgess. The weather in North Texas – we all know, it’s unpredictable and can change in an instant. North Texans can never be too prepared for the natural disasters that may impact our region. In an effort to help residents and businesses be better prepared for severe weather and other natural disasters, I am hosting the fourth annual Emergency Preparedness Summit & Fair on Saturday, April 14 in Denton.

Two panels of experts – we’ll have both local and state and federal organizations provide information on weather and disaster preparedness. In addition, there will be information booths with demonstrations where weather and disaster response organizations will present and distribute pertinent consumer information. The event will open at 8 a.m. with access to the fair, and presentations will begin at 8:30 a.m. Chief Meteorologist for Fox 4, Dan Henry, will be the keynote speaker for the event.

There is a wealth of information available to families and businesses in North Texas on how they can prepare and plan for severe weather and other natural disasters. Please come to this gathering of experts and your neighbors. I want to help North Texans prepare by having the tools and knowledge on what to do in case of an emergency.

Thank you for taking the time to listen. Please visit my website, burgess.house.gov, to learn more about this and other concerns before the United States Congress. May God bless you and your family. And as always, may God bless Texas.
