Dear Chairman Waxman, Ranking Member Barton and Representative Burgess:

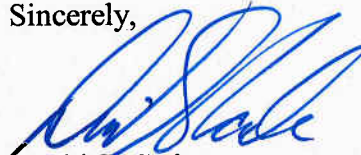

I am writing in response to your letter dated February 17, 2010, in which you request the production of "any paper or electronic communications between the Department of Health and Human Services and the health care industry regarding agreements between the White House and any private party, including individuals, groups, associations or companies relating to any of the following 111th Congress healthcare bills: H.R. 3200, H.R. 3590, H.R. 3961, S 1679, or S. 1796." We are not aware of any such agreements between the White House and the private parties noted above, and, in the course of a thorough review, did not locate any paper or electronic communications responsive to your request.

We understand that, on January 26, 2010, Robert F. Bauer, Counsel to the President, responded to a request from Congressman Burgess on a similar subject by highlighting the Administration's commitment to transparency in government, and providing information relating to White House discussions and meetings with a broad range of organizations and associations representing various components in the health care system. Much of this information is also on the White House website.
